

CoPatient offers a unique mix of industry leading expertise, software and unparalleled service to reduce out-of-pocket medical expenses.

Experienced Patient Advocates

Billing and Coding, Claims Adjudication, and Clinical Knowledge

Web-Based Proprietary Software

Health care costs continue to rise, with \$320 billion spent in out-of-pocket expenses last year alone. Given the pressure on employee benefits, CoPatient offers a way to show your commitment to your employees by helping them save money on medical bills.

What Is CoPatient ?

We provide a free review of your employees' medical bills to identify errors or overcharges. We then appeal them on your employees' behalf, saving time and money.

Network of Knowledgeable Advocates

Our Advocates have more than 30 years of health care expertise on average, with experience in billing & coding, claims adjudication and clinical settings.

Industry Leading Technology

Our proprietary software identifies common medical billing errors and overcharges and streamlines the audit process.

Focus on Service

We match your employees with an experienced advocate that provide answers, education and support throughout the appeal process. Customized marketing campaigns are developed to educate employees about our service.

How it Works

Our medical bill review is fast and easy to use.

Employee Submit Bills

Your employee sends bills & insurance information to CoPatient via smartphone, scan or mail.

CoPatient Review

Our expert advocate will examine and organize all paperwork, & review for cost-saving opportunities.

CoPatient Free Report

We send your employee a free report of itemized costs, and highlight any overcharges and errors.

CoPatient Negotiation and Bill Reduction Service

Your employee can opt in to have an expert advocate negotiate with providers and insurance companies on their behalf to reduce their out-of-pocket expenses. Our small contingency fee is based on the savings we recover.

90% of our customers recommend our service

CoPatient reduces employee out-of-pocket medical expenses
